

SELF EVALUATION FORM

UNIT: 9

LEVEL:

STUDENT NAME: Amy Joiner

With reference to the **Learning Outcomes** for the Unit write a summary or bullet point list of what you consider to be:

The key achievements of your work on the unit (maximum 100 words)

- Pushing myself to take up new challenges and experimenting with my medium
- Collaborating with people from in and outside of university on my piece and the arrangements of the degree show
- Improving my skill with crochet through lots of practise
- Been able to manage my time effectively and sustain an art practice

The most useful things that you learnt (maximum 100 words)

- Discovering new artists and exhibitions through research in to particular artists and their associates
- How to yarn-bomb and the means necessary to do so
- Time management needed for preparation of a show
- How to work in difficult weather conditions
- How to keep things under control and remain patient despite hiccups along the way

The issues that you found challenging and how you set about overcoming them (maximum 100words)

- Weather conditions - the weather is uncontrollable and totally out of hand, however I learnt how to just go along with it and prepare by checking the weather everyday so I know if I need sun cream or a raincoat. I learnt how to adjust to these conditions and balance what tasks could be completed with the weather in mind. Sometimes I would just have to brave it so I gave myself a time scale by finishing a certain amount of tasks or finishing off a panel, by then taking 5 to stretch, cool down/warm up and then go back with a fresh mindset.

List what you now consider to be the main areas for development that you intend to focus on in the next unit? (maximum 100 words)

- I wish to continue yarn-bombing and crochet by taking it out in to public areas
- I will take more preparation in to the working out of spaces and measurements of yarn-bombing as although I am pleased with my piece I feel that I could get a more definitive coverage of wool over things if I correctly make workings out beforehand.
